Research:

My dissertation exploits shocks to airline markets in Brazil to study questions of competition, regulation, airline operations, and market outcomes.

“The Downstream Effects of Airport Privatization: Evidence from Brazil” (Job Market Paper)

I examine how the privatization of airports in Brazil affects airline operations and the markets those airports serve. Privatization improves services provided to both airlines and passengers. Delays decline on the routes served by privatized airports, and passengers report greater satisfaction with those airports. In contrast, market concentration and average fares rise. Airlines that already have more pronounced operations at a privatized airport gain market share on the routes the airport serves, while airlines with little presence lose share. Effects are stronger after the deadline for the mandated infrastructure investments.

Teaching Experience:

Instructor of Record

Managerial Economics, University of Florida

Fall 2025, Fall 2026

Sole instructor of Managerial Economics, a requirement for the minor in economics. Designed and taught lectures, created assessments, and managed all aspects of the course.

Research Assistant

Department of Economics, University of Florida

Summers 2023–2026,
Fall 2023, Spring 2024

Activities included: data collection, data cleaning, empirical analysis, documentation of results, and literature review.

Teaching Assistant

Department of Economics, University of Florida

International Trade (Undergraduate)

Spring 2025, 2026

Economic Analysis of Data (Undergraduate)

Spring 2025, 2026

Intermediate Microeconomics (Undergraduate)

Fall 2024

Computing and Computational Methods I (Ph.D. Coursework)

Fall 2024

Macroeconomic Analysis (Masters)

Spring 2023

Economic Data Analysis (Masters)

Spring 2023

Industrial Organization (Undergraduate)

Fall 2022

Department of Economics, Federal University of Pernambuco, Brazil

Microeconomics (Graduate Level)

Spring 2021

Linear Algebra (Undergraduate Level)

March 2015

Honors, Scholarships, and Fellowships:

Madelyn Lockhart Graduate Student Travel Award

Fall 2025

Robert F. Lanzillotti Dissertation Award

Summer 2025

M.Sc. Scholarship from Brazilian Council for Scientific and
Technological Development

Mar 2020 – Mar 2022

Undergraduate Research Scholarship from the Brazilian Council for
Scientific and Technological Development

Aug 2016 – Aug 2017

Undergraduate Teaching Scholarship from the Brazilian Council for
Scientific and Technological Development

Spring 2015

Other:

Vice-President, Latine Organization for Graduate Students, University of
Florida. Organized events to foster interaction among students from
various academic backgrounds.

Aug 2022 – Aug 2026

Social Chair, Department of Economics, University of Florida.
Organized events to integrate faculty and graduate students.

Aug 2024 – Aug 2026

Conferences and Workshops:

Scheduled 2026: RIDGE Summer School, Southern Economic Association Annual Meeting

2025: Workshop in Applied and Theoretical Economics, Southern Economic Association Annual
Meeting

Skills and Languages:

Software: R, Python, MATLAB, LaTeX

Languages: Portuguese (Native), Spanish (Advanced), English (Fluent)
